

PIC/D-109-59
5 June 1959

MEMORANDUM FOR: Deputy Director (Plans)

SUBJECT: Third Interservice Coordination Conference
on Airborne Photographic Equipment

1. Attached hereto is [redacted] report and agenda of the subject conference held at WADC, Dayton, Ohio, 5-6 May 1959. 25X1

2. I have reviewed this with particular attention to the variety of airborne photographic equipment and associated hardware being developed by the services and the R & D costs indicated.

3. In the event that you have particular interests in any item and would like more data or briefings, I would be happy to respond. It is our intention to keep track of these activities through our observer representation on the committee. Many of the items are of unique interest to us and we will follow up on them unilaterally through PIC's R & D program. Items of airborne collection equipment would more properly be considered by your staff and our Technical Intelligence Services Division stands prepared to provide backup data or recommendations wherever you might find them useful.

[redacted] 25X1
ARTHUR C. LUNDAHL
Director,
Photographic Intelligence Center
